

<u>Question</u>	<u>Answer</u>
What do you think about the location and size of the proposed South Arran MPA ?	I agree with Coast's response. There is far too much grabbing from the sea floor. It used to be a very very very famous place for fishing, Arran.
What should the management measures be for the proposed South Arran MPA?	As per Coast.
What social and economic effects do you think the South Arran MPA will have?	It will make it a more pleasant place to live. No noise from fishing vessels, and the residents will feel more at ease knowing that the environment is being protected.
Other Comments	At this very moment there is a trawler off the shore well within the Coast advocated area making a noise and hoovering up whatever it is hoovering up. the world needs to learn to put money and jobs bottom of the chain of priority if it is to sustain itself sensibly.
