

<b><u>Question</u></b>	<b><u>Answer</u></b>
Do you support the development of an MPA network in Scotland's Seas?	Yes
Designation	I support Coast's proposed options. Only diving for scallops and recreation fishing should be permitted. All bottom trawling should be banned.
Management Options	Healthier seas mean nealthier economics for commercial fishermen
Socioeconomic Assessment:	An MPA will improve tourism around and on the Island.
Other Comments	I have fished as a hobby for 60 plus years in the seas around Arran and there is no doubt that commercial trawling has decimated the availability of fish, which also affects the wild sea bird populations.
