Dear Sirs

Ref. Lord Bonomy's review  
of Hunting - I think it is  
essential to allow a whole  
pack of Hounds to be used  
to Flush foxes to a line of  
waiting guns. To reduce this to  
two hounds only, would render this  
essential method of fox control  
ineffective

The fox population in some parts of  
Scotland - especially Forestry areas - is almost  
out of control. As a sheep farmer, I  
view Hunting with Hounds as an essential  
control tool.

Your  
Pik Kilroy.
