17. Consultation Question 1: Do you believe that the exhibitions and performances required of wild animals in travelling circuses compromise respect for the animals concerned? Why?

Yes

18. Comments

Animals are taken out of their natural habitat and forced to do unnatural exercises for our entertainment. This is outdated and cruel.

19. Consultation Question 2: Do you believe that the exhibitions and performances required of wild animals in travelling circuses have an adverse impact on the development of respectful and responsible attitudes towards animals in children and young people? Why?

Yes

20. Comments

I believe that if young children see animals being used in such a way it will impact them poorly, because they will believe that it is okay to use animals as property. Also they might not understand how dangerous for example a tiger can be if they see someone "playing" with them.

21. Consultation Question 3: Do you consider that concerns relating to respect for animals could be resolved without banning the use of wild animals in travelling circuses. If so how?

No

23. Consultation Question 4: Do you believe that the ability of none, some, or all wild animals to undertake natural behaviours are compromised within the travelling circus environment? Which species? Which needs? Why?

All

24. Comments

Because no animal should be going through the stress of not being in their natural habitat, to travel around and to do tricks they are not meant to do, all for some food. No animal should have to live through this. Being confined in a cage most of your life is not natural and very stressful

25. Consultation Question 5: Do you consider that it is possible to facilitate the natural behaviour of none, some, or all wild animals within the travelling circus environment? Which species? How?

None

27. Consultation Question 6: Do you consider that the concerns raised surrounding the travelling environment could be resolved without banning the use of wild animals in travelling circuses? How?

No

29. Consultation Question 7: Do you consider that there are any benefits to be gained from having wild animals in travelling circuses? What are they?

No

31. Consultation Question 8: Do you believe that there are sufficient benefits to justify the potential compromise to the wider well-being of wild animals kept in the travelling circus? Why?

No

33. Consultation Question 9: Do you consider that the potential conflict between compromising the well-being of wild animals and obtaining any benefit could be resolved without banning the use of wild animals in travelling circuses. If so how?

No

40. Consultation Question 11: What effect do you think a ban on the use and exhibition of wild animals would have on the revenue of such circuses? Why?

No change

42. Consultation Question 12: If a ban on the use and exhibition of wild animals was imposed, do you think that such circuses would still visit Scotland without the wild animals? Why?

Yes

44. Consultation Question 13: What effect do you think a ban on the use and exhibition of wild animals in travelling circuses would have on the revenue of other types of circuses (e.g. static or those travelling without wild animals)? Why?

Increase

46. Consultation Question 14: What effect do you think a ban on the use and exhibition of wild animals in travelling circuses would have on the revenue of circus venues? Why?

No

58. Consultation Question 20: Do you consider that there are key species that should be covered by a ban in the event that a blanket ban could not be achieved? If so, which species and why?
Yes

59. Comments

No animal should have to be in the circus! However some suffer more than others by it.

60. Consultation Question 21: Do you have any other comments on whether/how the use of wild animals in travelling circuses should be banned from Scotland?
Yes

61. Comments

It's not useful and it is painful for the animals and should not be inflicted upon anyone. A ban should take place!
