17. Consultation Question 1: Do you believe that the exhibitions and performances required of wild animals in travelling circuses compromise respect for the animals concerned? Why?

Yes

18. Comments

Wild animals should not be removed from the wild nor breed in captivity to 'entertain'. They require much more than food and tiny living accommodation, they need space and company of others to roam and live as they should. Certainly they should not be used as entertainment props.

19. Consultation Question 2: Do you believe that the exhibitions and performances required of wild animals in travelling circuses have an adverse impact on the development of respectful and responsible attitudes towards animals in children and young people? Why

Yes

20. Comments

The children think it is normal and acceptable to take wild animals for entertainment and keep them for the pleasure and profit of humans

21. Consultation Question 3: Do you consider that concerns relating to respect for animals could be resolved without banning the use of wild animals in travelling circuses. If so how?

Yes

The environment is totally unnatural for all captive wild animals, none would have the correct environment nor be allowed to undertake natural behaviours.

33. Consultation Question 9: Do you consider that the potential conflict between compromising the well-being of wild animals and obtaining any benefit could be resolved without banning the use of wild animals in travelling circuses. If so how?

40. Consultation Question 11: What effect do you think a ban on the use and exhibition of wild animals would have on the revenue of such circuses? Why?

Increase

41. Comments

Many many people do not visit circuses because of the treatment of wild animals. If they were removed I believe many would return to see the acrobats clowns etc. The rise and success of troupes like Cirque de Soleil indicate that the market is there.
