17. Consultation Question 1: Do you believe that the exhibitions and performances required of wild animals in travelling circuses compromise respect for the animals concerned? Why?

No

18. Comments

they are forced to travel in small enclosures in all weather to perform out of fear. It is exactly like the zoos of old where the environment was very unsuitable.

19. Consultation Question 2: Do you believe that the exhibitions and performances required of wild animals in travelling circuses have an adverse impact on the development of respectful and responsible attitudes towards animals in children and young people? Why

Yes

20. Comments

they would see that animals are there to be laughed at or abused for entertainment.

21. Consultation Question 3: Do you consider that concerns relating to respect for animals could be resolved without banning the use of wild animals in travelling circuses. If so how?

No

23. Consultation Question 4: Do you believe that the ability of none, some, or all wild animals to undertake natural behaviours are compromised within the travelling circus environment? Which species? Which needs? Why?

All

24. Comments

they are kept in smaller cages than they were a hundred years ago. zoos now mimic animals environment, a circus does not do that.

25. Consultation Question 5: Do you consider that it is possible to facilitate the natural behaviour of none, some, or all wild animals within the travelling circus environment? Which species? How?

None

26. Comments

absolutely not, same answer as 4.

27. Consultation Question 6: Do you consider that the concerns raised surrounding the travelling environment could be resolved without banning the use of wild animals in travelling circuses? How?

No

28. Comments

their needs are not being met. there is nothing the circus can do to stop this, the only thing they can do is stop using wild animals.

29. Consultation Question 7: Do you consider that there are any benefits to be gained from having wild animals in travelling circuses? What are they?

No

30. Comments

none whatsoever.

31. Consultation Question 8: Do you believe that there are sufficient benefits to justify the potential compromise to the wider well-being of wild animals kept in the travelling circus? Why?

Yes

33. Consultation Question 9: Do you consider that the potential conflict between compromising the well-being of wild animals and obtaining any benefit could be resolved without banning the use of wild animals in travelling circuses. If so how?

No

34. Comments

these questions are all the same, just worded different. Wild animals should not be in circuses for any reason.

36. Number in last 5 years

none that I know of

37. Number in last 12 months

none that I know of

40. Consultation Question 11: What effect do you think a ban on the use and exhibition of wild animals would have on the revenue of such circuses? Why?

No change

41. Comments

I go to circuses for entertainment, not just animal entertainment. I see nothing wrong with domestic animals in them, such as dogs because dogs love their owners and a lot of breeds love to perform for their owners and for treats, and their needs are nowhere near what a wild animal is.

42. Consultation Question 12: If a ban on the use and exhibition of wild animals was imposed, do you think that such circuses would still visit Scotland without the wild animals? Why?

Yes

43. Comments

because they still have a living to make and should not rely solely on wild animals for the performances.

44. Consultation Question 13: What effect do you think a ban on the use and exhibition of wild animals in travelling circuses would have on the revenue of other types of circuses (e.g. static or those travelling without wild animals)? Why?

No Change

45. Comments

because it does not affect them.

46. Consultation Question 14: What effect do you think a ban on the use and exhibition of wild animals in travelling circuses would have on the revenue of circus venues? Why?

No change

47. Comments

WAC 211

48. Consultation Question 15: Do you consider that a ban on wild animals in travelling circuses could have an impact on other industries? If so, which industries, what would be the effect and why?
