2. OVERVIEW OF THE IMPLEMENTATION OF THE OPERATIONAL PROGRAMME (ARTICLE 50(2) AND 111(3)(A) OF REGULATION (EU) NO 1303/2013)

2.1. Key information on the implementation of the operational programme for the year concerned, including on financial instruments, with relation to the financial and indicator data.

The ERDF programme in Scotland was designed to be delivered in two phases.

Commitments reported to the JPMC in November 2017 were €244,827,925, representing 51% of the then programme value of €478,914,103. This is a small increase in the committed value reported at the end of 2016 and is in line with anticipated approval levels at this stage in the programmes. 56% of the funding allocated to the Highlands and Islands has been committed.

At the end of 2016 only one claim had been submitted and paid within ERDF and no claims within ESF had been paid with significant delays being experienced across all priorities. All operations are progressing, and whilst this is slower that originally forecast, results are being delivered. However the slow start to the programme has resulted in a slower pace of spending and consequently claims for reimbursement being lower than anticipated. Allied with this is the increased complexity of compliance with EC Regulations when processing claims to check for eligible expenditure and outcomes. This led to a total decommitment of €22.4 million to the programmes as Scotland failed to meet the 2017 N+3 targets. The loss to the ERDF programme is €3.3 million and €19.1 million to the ESF programme.

The largest component of this decommitment is a direct result of Scotland's success in reducing youth unemployment in south-west Scotland. This meant that funding we had allocated was not needed, and EC rules mean we cannot reallocate this to other opportunities. Based on the labour market statistics for Oct-Dec 2017, Scotland is outperforming the UK on employment, unemployment and inactivity rates for young people aged 16-24. Scotland's youth unemployment rate (10.3%) is lower than the UK's rate (12.1%) and is the eighth lowest in the EU.

An early review of the programmes was undertaken in 2017 resulting in a number of changes being made to the Operational Programmes and the National Rules. The amendments were approved at the end of 2017 allowing for greater flexibility, improvements to absorption of the funding and ensuring the programmes are scheduled to meet the targets in the OP and PA.

An outline of the review is detailed in section 4 and 6.

Across the ESF and ERDF programmes, the slow rate of claims and the impact of the requirements of the Management and Control System have presented challenges in delivery to date; it is anticipated that through familiarity with the processes and adaptations to working practices, these can be overcome over the next year.

<u>Smart Growth</u> is progressing steadily with a reasonable overall commitment level. Some areas are still under-committed, the most notable being ERDF Priority 1 (Innovation) which is still showing lower levels of commitment. However, work on the Early Review identified areas of demand supporting innovation activity within the Manufacturing Action Plan and through City Deals as well as potential

infrastructure in the transition region which could take up significant levels of this funding in the second phase of the Programme. ERDF Priority 2 is now almost fully committed but with no spend anticipated until late 2018 due to the lead in time that has been required in developing the operations and for the procurement process. Commitment levels are reasonable at this stage for ERDF Priority 3. There has been an additional allocation to the SME Holding Fund (LUPS) to meet unexpected levels of demand for equity funding for SMEs provided through Scottish Enterprise.

Sustainable Growth continues to progress generally on track, with 50% of funding committed and targets proceeding to programme expectations. An increased proportion of demonstrator projects in the Low Carbon Infrastructure Transition Fund contrasts with extended support under the Circular Economy activity, where additional small scale funding is now available to support progression of more projects to access the main fund. This demonstrates effective management of the funds to reflect emerging priorities, respond to the wide range of influencing factors, ensure maximum impact and maintain appropriate accessibility and targeting. A large element of the Sustainable Growth strand is delivered through Challenge Funds, most of which are now entering their second Round. Interest and uptake is generally encouraging, although match funding issues have hindered proposals coming forward in the H&I region.

Further detail by priority axis is presented in Section 3.1 of this report.

The issues affecting performance are outlined in Section 6.

Economic Context:

The latest Scottish Government State of the Economy update was published in June 2017. GDP data for Scotland confirmed growth overall in Scotland during 2016 of 0.4 per cent, which was below trend and expectation. The report identifies in particular a fall in output in the Oil and Gas sector, reflecting wider, international factors.

Looking forward, the report notes that the outlook remains positive but at below trend growth. It notes that growth in exports sales are materialising given the sustained depreciation of Sterling over the last year. Rising import prices feed through to higher inflation, impacting real income growth and household consumption, and the significant risk posed by Brexit, particularly beyond 2018. Growth is forecast at around 1% in both 2017 and 2018.

In contrast to weaker economic growth, the labour market has been more resilient with employment continuing to rise and unemployment falling to near record low rates, albeit with a slight rise in inactivity levels. The report notes the ability (and demand) within the wider economy to absorb skilled labour

The significant economic shifts since the development of the programmes have changed the demands on the programmes, particularly ESF. While economic growth has slowed, the labour market has remained robust, meaning that ESF operations are targeting a small group of potential participants, often with higher levels of needs. This has been particularly pronounced in youth unemployment, both in Scotland as a whole and the South West Scotland are targeted by the YEI operations, as noted above.

Alongside this, the latest State of the Economy report highlights two other factors that impact on the programme: a requirement for more highly skilled employees, which is reflected in the increased demand in ESF Priority 3, and a dip in productivity, which the changes to the OP will aim to address through the changes to ERDF Priority 1.

Technical notes to this report:

Financial values have been converted from GBP to EUR at the Commission published monthly rates. For claims, this is the rate prevailing at the time each claim was approved, and for commitments, the rate that was current at the time of reporting (so for example overall commitments reported to the JPMC in November 2016 used the November 2016 rate).

3. IMPLEMENTATION OF THE PRIORITY AXIS (ARTICLE 50(2) OF REGULATION (EU) NO 1303/2013)

3.1. Overview of the implementation

information on the implementation of the priority axis with reference to key developments, significant problems steps taken to address these problems two enterprise agencies, Scottish Enterprise (SE) and Highlands & Islands Enterprise (HIE), are working with its to support innovation through research and technical development to strengthen economic development. This ity is now well underway although this is not yet reflected in performance reports as Lead Partners have been er in submitting claims. However, approved targets indicate that some Programme targets can be met through the 1 approved operations only i.e. 'No of SMEs supported to introduce new to the market products' but this has to be evidenced in verified claims. Some targets will not be met with the existing operations i.e. 'number of apprises co-operating with research institutes' as no suitable operations have come forward to deliver against this tut indicator. The SME Holding Fund has also been very active providing loans for investment in innovative the SMEs. However, again due to the slow pace of submitted claims this is not evident in the performance data. Priority remains under-bid as the Scottish Funding Council activity around innovation centres and increasing the city of these centres to engage with SMEs has not yet been approved. Work is underway to determine whether activity can be approved. However, recent analysis has shown that significant demand exists in other areas for

ID	Priority axis	Key information on the implementation of the priority axis with reference to key developments, significant problems and steps taken to address these problems
		Whilst this National Programme will now address much of the basic connections that the ERDF Operational Programme had been intending to support, ERDF - in continuing to provide innovative and high tech solutions for those hardest to reach areas, and looking to develop practical and commercial solutions for the next generation digital technology - is key in ensuring that the Highlands & Islands as a region is able to benefit from, and be at the forefront of, progression in digital technology and services into the future.
3	Enhancing the Competitiveness of SMEs	All areas of Scotland have operations delivering business leadership, growth and internationalisation support. This is being delivered through the Enterprise Agencies, SE and HIE, and Local Authorities delivering additional Business Gateway activity. Although some Lead Partners commenced the business competitiveness delivery in 2015 this is not reflected in the performance reports. Lead Partners have been cautious with regard to claiming support to enterprises and have not been including all support delivered within submitted claims as they are not confident about the evidence they are required to demonstrate resulting in performance and spend being much lower than expected by this stage in the Programme. The Managing Authority has been discussing this issue with Lead Partners and recently provided further clarification regarding evidencing non-financial support to enterprises. This should ensure that Lead Partners are more confident regarding the eligibility requirements and more activity should be included in future claims. The SME Holding Fund has also been delivering investment support to SMEs with growth and internationalisation potential. The various funds supported through the Holding Fund have been very active and this is demonstrated in the performance reports i.e. the output indicator 'number of enterprises receiving financial support other than grants' is showing good progress to date for both Transition and More Developed areas. Commitment levels for the priority are fairly steady for this stage in the Programme. However, with the reduction in public sector budgets it is difficult to assess the demand for the second phase of the Programme particularly from Local Authorities. The SME Holding Fund has demonstr
4	Supporting a shift towards a low carbon economy in all sectors	The ERDF Programme includes a number of Investment Priorities supporting the sift to a Low Carbon Economy. The Scottish Government lead on development, demonstrating and piloting of new technology, or innovative uses of existing technology, by public bodies and SMEs. Progress under this priority has been good in terms of the range of activity supported; for example, combining renewable energy generation and storage solutions with promoting and facilitating the promotion and uptake of low carbon transport options. Significant elements of this work are through Grant Schemes, and the associated lead in time means reporting in claims lags behind the actual expenditure and achievements. Similarly, commitments for Low Carbon Transport Hubs have exceeded the Phase 1 allocation of ERDF and results reported will continue to progress towards the Programme targets.

ID	Priority axis	Key information on the implementation of the priority axis with reference to key developments, significant problems and steps taken to address these problems
		Work on the Circular Economy aspects of the Programme has had consistent progress, albeit with a slower initial uptake which is reflected in the current position of claimed costs and outcomes. Projects now being supported through the Programme include a range of highly innovative actions utilising not just existing materials and technology but options for developing new raw materials from what has previously been regarded as waste. Throughout this Thematic Objective, whilst the lag between commitment and delivery and claiming has reduced outputs and spend reported, there are no significant concerns around either the absorption of the ERDF funds or delivery of the target outputs
5	Preserving and protecting the environment and promoting resource efficiency	The ERDF Operational Programme includes three distinct elements delivering this Thematic Objective, the most recent addition supports the promotion and protection of Natural and Cultural heritage assets in the Highlands & Islands region and will be led by Scottish Natural Heritage. The detail around delivery of this activity is being developed and the pipeline of activity appears healthy, although the largely capital nature of this work means reported costs and outputs are not likely until 2019 and beyond. Scottish natural Heritage also lead on Green Infrastructure work in the Programme, which is progressing well. Again the largely capital expenditure has resulted in a lag from commitment to claims, but 2018 is expected to see significant advances in both expenditure and outputs reported. The final element is resource efficiency, which has performed well throughout the Programme to date. Outputs have reflected the significant engagement that Zero Waste Scotland, who lead on delivery of this element of the Programme, have made in engaging with business and communities throughout Scotland. This has resulted in a healthy uptake in the Highlands & Islands, transitional, region and is in part helped through their engagement of large businesses to facilitate direct access to the SMEs who make up their supply chains and provide key services. A slower start in the early years of the programme has resulted in lower rate of expenditure than initially envisaged, however the range and number of outputs reported continues to suggest that, whilst the Managing Authority will continue to work closely with the organisations leading on delivery of this activity, there are no specific issues to address at this point.
6	Technical Assistance	Four TA projects were approved during 2017 between the two Scottish programmes, covering MA and AA staff costs plus expenditure incurred in the monitoring and evaluation of the programmes and delivering events for external stakeholders.
		Expenditure to end September 2017 has been reported to date for MA staff involved in the management and co-

ID	Priority axis	Key information on the implementation of the priority axis with reference to key developments, significant problems
		and steps taken to address these problems
		ordination of the programmes.
		Since the beginning of the programme, annual events have been organised in 2015, 2016 and 2017. The 2017 event took place in November and was addressed by Keith Brown, Cabinet Secretary for Economy and Fair Work. There were presentations from Skills Development Scotland on their apprenticeship programmes and Zero Waste Scotland on their circular economy and resource efficiency projects. Two modern apprentices spoke on the day as well as a presentation from 'Fearless Femme', a project supported within the 'Social Innovation Fund' which has been set up to pilot innovative ideas and test how they work in practice. The storify publication can be found at: https://storify.com/ESFScotland/european-structural-funds-annual-event-2017.
		Alongside the annual events, the MA maintains a page within the Scottish Government website, has a social media presence including twitter (@scotgovESIF) and has introduced regular lead partner events to discuss issues arising around programme delivery and keep stakeholders informed of changes and delivery of the programmes. Evaluation work to date is reported in section 4. No new evaluation work was completed during 2017.

3.2. Common and programme specific indicators (Article 50(2) of Regulation (EU) No 1303/2013)

Priority axes other than technical assistance

Priority axis	1 - Strengthening Research, technological development and innovation
Investment	1b - Promoting business investment in R&I, developing links and synergies between enterprises, research and development centres and the higher education sector, in
Priority	particular promoting investment in product and service development, technology transfer, social innovation, eco-innovation, public service applications, demand
	stimulation, networking, clusters and open innovation through smart specialisation, and supporting technological and applied research, pilot lines, early product validation
	actions, advanced manufacturing capabilities and first production, in particular in key enabling technologies and diffusion of general purpose technologies

Priority axis	1 - Strengthening Research, technological development and innovation
Investment	1b - Promoting business investment in R&I, developing links and synergies between enterprises, research and development centres and the higher education sector, in
Priority	particular promoting investment in product and service development, technology transfer, social innovation, eco-innovation, public service applications, demand
	stimulation, networking, clusters and open innovation through smart specialisation, and supporting technological and applied research, pilot lines, early product validation
	actions, advanced manufacturing capabilities and first production, in particular in key enabling technologies and diffusion of general purpose technologies
Specific	SO1 - Increase business commercialisation and investment in RTDI, particularly in sectors identified through Smart Specialisation
objective

4. SYNTHESIS OF THE EVALUATIONS

Synthesis of the findings of all evaluations of the programme that have become available during the previous financial year, with reference of name and reference period of the evaluation reports used

For both Scottish programmes, the responsibility for the implementation of the Monitoring and Evaluation Strategy (https://beta.gov.scot/publications/esif-monitoring-evaluation-strategy-2014-2020/ERDF%20and%20ESF%20monitoring%20and%20evaluation%202014-2020.pdf?inline=true) sits with the Stakeholder Engagement and Governance team with the MA (formerly known as the Policy and Governance Team).

2017 Evaluation Work

During 2017, the Monitoring and Evaluation Strategy did not require for any new evaluation work to take place, however in November 2016 the JPMC agreed to bring forward the previously scheduled mid-term evaluation of the programmes to date which was anticipated to take place during 2017/18. The review was led by MA officials and overseen by a Steering Group, including policy and stakeholder representatives, and reviewed the programme in the context of the current socio-economic and policy context.

The project produced a review and series of recommendations which were agreed by the JPMC in June, including changes to the Operational Programmes (https://beta.gov.scot/publications/jpmc-minutes-june-2017/Paper%2006%20-%20Review%20Recommendations%20-%20I4%20June%202017.pdf?inline=true).

The recommendations agreed were to

- 1. Request changes to both the ERDF and ESF programmes
- 2. Allocate the additional H&I allocations for ERDF to Priority 5 (Protecting the Environment) and ESF to Priority 3 (Investing in Education, Training and Vocational training)
- 3. Request an increase in the Programme co-finance rates
- 4. Change to National Rules to allow apportioned staff costs following confirmation with Audit and EC
- 5. Consider eligible opportunities for digital skills, employability, mental health and financial engineering for social enterprises and, where appropriate, seek new interventions thereafter.

Based on this, revised Operational Programmes were submitted and agreed by both DG Emploi and DG Regio.

In addition to this, a consultation was agreed at the November 2016 JPMC meeting to consider the support available to the third sector. A report was provided to the JPMC in June (https://beta.gov.scot/publications/jpmc-minutes-june-2017/Paper%2009%20-%20Report%20of%20third%20sector%20survey%20-%2014%20June%202017.pdf?inline=true).

The report considered challenges faced by the third sector in accessing funds and the potential use of technical assistance to support access to fund. It found that there was not evidence to recommend providing a dedicated support service for the third sector, but suggested "an information service on funding opportunities" be provided. The MA is aiming to provide this during 2018.

In the 2016 report, it was noted that a project to investigate the use of Simplified Cost Options was taking place; this was completed and concluded that no further use of SCOs was practical at this stage.

Evaluation Work Prior to 2017

As reported in previous years, in prior years, the ex ante evaluation and first stage YEI evaluation have been completed and published:

Ex-ante: https://beta.gov.scot/publications/esif-formal-evaluations/

YEI: https://beta.gov.scot/publications/yei-evaluation-report-2014-2020/

2018 Evaluation Work

During 2018, the Monitoring and Evaluation Strategy includes two evaluations – the second stage YEI evaluation and a review of Communications and Publicity. Alongside this, the MA will undertake a review of the Monitoring and Evaluation Strategy.

6. ISSUES AFFECTING THE PERFORMANCE OF THE PROGRAMME AND MEASURES TAKEN (ARTICLE 50(2) OF REGULATION (EU) NO 1303/2013)

(a) Issues which affect the performance of the programme and the measures taken

As outlined under Section 4, an early review of the programmes was agreed by the JPMC in 2016 following uncertainty triggered by the EU referendum with the purpose of: identifying issues affecting performance; identifying new opportunities; and recommending measures to be taken to improve programme performance and absorption of funding. Analysis and consultation took place with policy leads, lead partners and wider stakeholders. The review reflected on changes to the economic climate and delivery and performance of the programmes to date.

The review sought to "sense-check" the underlying analysis and context on which the Structural Funds Programmes were designed, particularly the socio-economic and policy environment. The reduction in youth unemployment in West of Scotland has already been identified as an issue and affected the commitment and absorption of the Youth Employment Initiative funding. No other issues were deemed to be very significant to delivery, with the exception of the UK's decision to leave the EU. The UK's decision to leave the EUis rather a fundamental exception; however its impact is currently mostly discernible in the ERDF programme through indications that business investment confidence is not as strong.

The analysis concluded that despite changes since the programmes were developed, the original intervention logic for both programmes remains sound. However, the emergence of new strategic and key labour market changes means that, to assist in fully committing the programme and meet performance targets, some adjustments to both the scope and allocations were required. In addition, the evidence of lower levels of absorption, particularly in the Highlands and Islands, merits more operational changes to the way the Funds are delivered to encourage higher take up. Together, these measures seek to reduce the risk of the programmes not meeting expenditure targets but maintain absolute faith with the original strategies.

Commitment and expenditure levels are lower in H&I at this stage and match funding is identified as a key factor. This is particularly the case in priorities running challenge funds, and where third sector are heavily involved in delivery.

In addition a number of operations were under-resourced impeding progress, both in terms of delivery and management. Lead partners have indicated that one reason for the slower rate of expenditure and outputs is the increased burden on them to check information and provide evidence before claims are paid. The National Rules only allowed full time staff and a large number of organisations identified this a key issue.

This is mainly due to the increase in evidence required to meet audit and compliance checks.

The changes include programme-wide increases in intervention rates in the ESF and ERDF programmes in the Highlands and Islands and two new ERDF priorities to allow support for innovation infrastructure across Scotland and for culture and heritage assets in the Highlands and Islands region. In addition a change to the National Rules now allows apportioned staff costs following confirmation with Audit and

EC.

In addition to these changes the MA has taken steps, including updates to the EUMIS IT system, expanded guidance, events with lead partners and letters to chief officers, which are aimed at facilitating the submission of claims at a faster rate. When meeting with lead partners, the MA has made it clear that there remains the option for ESF/ERDF support for project management costs, including where staff are working a minimum of 40% of their time on Structural Funds activity.

As all recipient data must be entered into the MA's IT system, the MA developed a 'web interface' allowing automatic upload to EUMIS from the organisation's MI system. However IT resource and costs involved in enabling this proved a deterrent for a number of lead partners. As a result of feedback from lead partners, the MA introduced a csv upload facility which went live in June 2017.

(b) An assessment of whether progress made towards targets is sufficient to ensure their fulfilment, indicating any remedial actions taken or planned, where appropriate.

Within the ERDF and ESF programmes, the progress towards the PA and OP level targets will be reviewed as part of the development of the second phase and consideration will be given to the progress to date when prospective operations are assessed.

Delivery and reporting has been impacted by a number of issues which are common across the programme, including delayed submission of claims by lead partners, issues in adapting to the new requirements of the Management and Control System and delays in the early stage of the programme. Alongside this, the difficulties for lead partners to find the required match funding, prior to the changes to the OP, and the impact of the UK's decision to leave the European Union and its knock-on effects have created issues which lead partners and the MA are working to resolve. it is anticipated that through the changes made to the OP and National Rules, familiarity with the processes and adaptations to working practices, these can be overcome over the next year

Within Smart and Sustainable growth, the most notable concerns regarding achievement of the programme targets are the low levels of commitment under the Innovation priority, the introduction of new activity to the programme and the achievement and monitoring of programme results.

Under Inclusive Growth, there are concerns regarding the under commitment in the Highlands and Islands region, and the consequent impact of the potential achievements, and in the delivery of the YEI operations in South West Scotland.

Priority 1

The overall levels of commitment and anticipated targets for Smart Growth are close to those anticipated for the first phase of the programmes, with positive early indications from claims submitted to date and the information provided through the early review, and reported to the previous meeting of the Committee. However, there are also a number of potentially concerning issues, including commitments under Priority 1 and the results for BERD Expenditure, Number of SMEs exporting and Employment in Smart Specialisation Sectors reported in approved applications.

Regarding spend, it is hoped that the changes to the operational programme will stimulate demand due to increases in the intervention rates, especially in the Transition area, and the introduction of a new priority.

In terms of results, two potential areas have been identified: the delivery to date and future requirements will be considered when planning for and assessing the second phase of the programme, and recording methodologies used by operations and the programme to be considered to confirm if more accurate figures are available.

Priority 2

These operations required significant time to develop. Whilst good progress has been made, the contract will not be let until mid-2018 and the performace framework 2018 financial target cannot be met.

Priority 3

Priority 3 is making good progress and the MA do not envisage any issue meeting targets at this stage.

Priorities 4 and 5

While the information to date on outputs in committed operations is largely as expected, there are questions regarding the reporting of results. Two potential areas have been identified: the delivery to date and future requirements will be considered when planning for and assessing the second phase of the programme, and recording methodologies used by operations and the programme to be considered to confirm if more accurate figures are available.

7. CITIZEN'S SUMMARY

A citizen's summary of the contents of the annual and the final implementation reports shall be made public and uploaded as a separate file in the form of annex to the annual and the final implementation report

You can upload/find the Citizen's summary under General > Documents in the SFC2014 application

1. Priority axes or measures supporting the financial instrument, including funthe ESI Fund programme.	d of funds, under
1.1. Priority axis supporting the financial instrument under the ESI Fund programme	1 - Strengthening Research, technological development and innovation
2. Name of ESI Fund(s) supporting the financial instrument under the priority axis or measure	ERDF
3. Thematic objective(s) referred to in the first paragraph of Article 9 of Regulation (EU) No 1303/2013 supported by the financial instrument	Strengthening research, technological development and innovation
3.1. Amount of ESI Funds committed in funding agreements from the individual thematic objective chosen in field 3 (optional)	13,314,934.00
4. other ESI Fund programmes providing contribution to the financial instrument	ent
4.1. CCI number of each other ESI Fund programme providing contributions to the financial instrument	
30. Date of completion of the ex ante assessment	Feb 1, 2015
31. Selection of bodies implementing financial instrument	
31.1. Has selection or designation process already been launched	Yes
II. Description of the financial instrument and implementation arrangements (A Regulation (EU) No 1303/2013)	Article 46(2)(b) of
5. Name of the financial instrument	SME Holding Fund (1)
6. Official address/place of business of the financial instrument (name of the country and city)	5 Atlantic Quay 150 Broomielaw Glasgow Scotland G2 8LU
7. Implementation arrangements	
7.1. Financial instruments set up at Union level, managed directly or indirectly by the Commission referred to in Article 38(1)(a) of Regulation (EU) No 1303/2013, supported from ESI Fund programme contributions	No
7.1.1. Name of the Union-level financial instrument 7.2. Financial instrument set up at national, regional, transnational or cross-border level, managed by or under the responsibility of the managing authority referred to in Article 38(1)(b), supported from ESI Fund programme contributions under point (a), (b) and (c) of Article 38(4) of Regulation (EU) No 1303/2013	Entrustment of implementation
	Fund of funds
8. Type of the financial instrument	Funa or minas

(EU) No 1303/2013 (for financial instruments referred to in Article 38(4)(b) only):	of finance
fiduciary account opened in the name of the implementing body and on behalf of	
the managing authority or separate block of finance within a financial institution	
III. Identification of the body implementing the financial instrument as refer	red to in Articles
38(1)(a), 38(4)(a), (b) and (c) of Regulation (EU) No 1303/2013, and the finance	cial intermediaries
referred to in Article 38(5) of Regulation (EU) No 1303/2013 (Article 46(2)(c) of	
No 1303/2013)	
11. Body implementing the financial instrument	
11.1. Type of implementing body pursuant to Article 38(4) of Regulation (EU) No	Body governed
1303/2013 (a) existing or newly created legal entity dedicated to implementing	by public or
financial instruments; (b) a body entrusted with the implementation task or (c)	private law
managing authority underatking implementation task directly (for loans or	
guarantees only)	
11.1.1. Name of the body implementing the financial instrument	Scottish
	Government
11.1.2. Official address/place of business (country and town name) of the body	Atlantic Quay
implementing the financial instrument	150 Broomielaw
	Glasgow
	Scotland G2

PART B

REPORTING SUBMITTED IN YEARS 2017, 2019 AND FINAL IMPLEMENTATION REPORT (Article 50(4), 111(3) and (4) of regulation (EU) No 1303/2013

- 11. ASSESSMENT OF THE IMPLEMENTATION OF THE OPERATIONAL PROGRAMME (ARTICLES 50(4) AND 111(4) OF REGULATION (EU) NO 1303/2013)
- 11.1. Information in Part A and achieving objectives of the programme (Article 50(4) of Regulation (EU) No 1303/2013)

1 - Strengthening Research, technological development and innovation
2 - Enhancing access to, and use and quality of ICT
3 - Enhancing the Competitiveness of SMEs
4 - Supporting a shift towards a low carbon economy in all sectors
5 - Preserving and protecting the environment and promoting resource efficiency
6 - Technical Assistance
e actions taken to promote equality between men and women and to prevent, in particular accessibility for persons with disabilities, and the arrangements o ensure the integration of the gender perspective in the operational programme and ticles 50(4) and 111(4), second subparagraph, (e) of Regulation (EU) No 1303/2013)
able development (Articles 50(4) and 111(4), second subparagraph, (f) of Regulation 2013)

11.4. Reporting on support used for climate change objectives (Article 50(4) of Regulation (EU) No 1303/2013)

Priority axis	Amount of support to be used for climate change objectives (EUR)	Proportion of total allocation to the operational programme (%)
3	480,441.19	0.31%

4	64,782,906.98	51.89%
5	24,052,428.06	45.00%
Total	89,315,776.23	18.65%

11.5. Role of partners in the implementation of the programme

	SUBPARAGRAPH, (A) AND (B), OF REGULATION (EU) No 1303/2013
12.1.	Progress in implementation of the evaluation plan and the follow-up given to the findings of
evalua	tions

12.2. The results of the information and publicity measures of the Funds carried out under the communication strategy

13. ACTIONS TAKEN TO FULFILL EX-ANTE CONDITIONALITIES (ARTICLE 50(4) OF REGULATION (EU) NO 1303/2013) (MAY BE INCLUDED IN REPORT TO BE SUBMITTED IN 2016 (SEE POINT 9 ABOVE). REQUIRED IN REPORT SUBMITTED IN 2017) OPTION: PROGRESS REPORT

SECOND SUBPARAGRAPH, (A), (B), (C), (D), (G) AND (H), OF REGULATION (EU) NO 1303/2013)
14.1. Progress in the implementation of the integrated approach to territorial development, including development of regions facing demographic challenges and permanent or natural handicaps, integrated territorial investments, sustainable urban development, and community led local development under the operational programme
14.2. Progress in the implementation of actions to reinforce the capacity of Member State authorities and beneficiaries to administer and use the Funds
14.3. Progress in the implementation of any interregional and transnational actions
14.4. Where appropriate, the contribution to macro-regional and sea basin strategies
As stipulated by the Regulation (EU) No 1303/2013, article 27(3) on the "content of programmes", article 96(3)(e) on the "content, adoption and amendment of operational programmes under the Investment for growth and jobs goal", article 111(3), article 111(4)(d) on "implementation reports for the Investment for growth and jobs goal", and Annex 1, section 7.3 on "contribution of mainstream programmes to macroregional and sea-basin strategies, this programme contributes to MRS(s) and/or SBS:
 □ EU Strategy for the Baltic Sea Region (EUSBSR) □ EU Strategy for the Danube Region (EUSDR) □ EU Strategy for the Adriatic and Ionian Region (EUSAIR) □ EU Strategy for the Alpine Region (EUSALP) □ Atlantic Sea Basin Strategy (ATLSBS)

14. ADDITIONAL INFORMATION WHICH MAY BE ADDED DEPENDING ON THE CONTENT AND OBJECTIVES OF THE OPERATIONAL PROGRAMME (ARTICLE 111(4),

14.5. Progress in the implementation of actions in the field of social innovation, where appropria	ite
14.6. Progress in the implementation of measures to address the specific needs of geographical areas most affected by poverty or of target groups at highest risk of poverty discrimination or soc exclusion, with special regard to marginalised communities and persons with disabilities, long term unemployment and young people not in employment including, where appropriate, the financial resources used	

PART C REPORTING SUBMITTED IN YEAR 2019 AND FINAL IMPLEMENTATION REPORT (Article 50(5) of Regulation (EU) No 1303/2013)

15. FINANCIAL INFORMATION AT PRIORITY AXIS AND PROGRAMME LEVEL (ARTICLES 21(2) AND 22(7) OF REGULATION (EU) NO 1303/2013)

Information on and assessment of the programme contribution to achieving the Union strategy for smart, sustainable and inclusive growth.

SMART, SUSTAINABLE AND INCLUSIVE GROWTH (OPTION PROGRESS REPORT)

16.

17. ISSUES AFFECTING THE PERFORMANCE OF THE PROGRAMME AND MEASURES TAKEN — PERFORMANCE FRAMEWORK (ARTICLE 50(2) OF REGULATION (EU) NO 1303/2013)

Where the assessment of progress made with regard to the milestones and targets set out in the performance framework demonstrates that certain milestones and targets have not been achieved, Member States should outline the underlying reasons for failure to achieve these milestones in the report of 2019 (for milestones) and in the final implementation report (for targets).
