Subject: The Baby Wrap - the questions
Importance: High

Other contents - I was also wondering whether there might be similar questions around some of the other items in the box – so we might get asked by parents about what the box is made off, is it 'safe', flammable etc etc. Similarly do we have reassurance that all the items of clothing comply to EU safety standards and that the 'devices' comply with appropriate health and safety guidance?

Look forward to hearing from you in due course
Thanks

Hi

Attached is some safety instructions copy that come as part of the BSEN 1130 crib accreditation that we required to include in the box.

For discussion today – so a copy attached for your reference.

SCOTLAND'S BABY BOX

SAFETY INSTRUCTIONS

IMPORTANT. RETAIN FOR FUTURE REFERENCE

REVERSE:

IMPORTANT. RETAIN FOR FUTURE REFERENCE

PLEASE READ CAREFULLY

- The Baby Box should be placed on a flat and level surface or floor at all times
- You should never allow young children to play unsupervised in the vicinity of the Baby Box
- The Baby Box should never be moved or carried when the infant is inside it
- Never place the lid on the box whilst the infant is inside
- The Baby Box comes fully assembled so there is no requirement for you to assemble. You will just need to unwrap the mattress, place the fitted sheet on the mattress then place in the bottom of the Baby Box.
- Please never use the Baby Box if any part of it is broken, torn or missing.
- When a child is able to sit, kneel or to pull themselves up, the Baby Box should not be used anymore for this child.
- Please only use the mattress provided in the Baby Box.
- Please do not place the Baby Box in the vicinity of open fires, and other sources of strong heat, such as electric bar fires, gas fires etc as this will be extremely dangerous

Morning,

Please find attached the artwork for the Safety Instructions for the Baby Box, that are a requirement as part of the BS EN 1130 accreditation certificate.

I will have copies to review and approve at today's project meeting.

Many thanks

Hi

Accreditations and Standards as noted. Unfortunately we are not able to advise on how Scotland's baby Box and contents compare to other Baby Boxes available in the market place.

Baby Box + Mattress

Baby Box

Scotland's Baby Box conforms to BSEN1130, including passing of the stability, static load and strength safety tests. Scotland's Baby Box does not have carrying handles and is approved for domestic crib use.

The Box has also passed the accreditation having no small parts.

All safety instructions are included in the Box and on the inside lid and conform to the accreditation along with labelling on the Box itself, including the mattress plimsole line on the inside of the Box.

✓ Safety Instructions and safe use guidance is provided in the Box.

Kind regards

Subject: RE: Baby Box Specification and Accreditations

Hi

I have updated slightly

Following our discussion today regarding requests relating to accreditations, specifications and testing that we have achieved for Scotland's Baby Box, we should be mindful that the individual product specifications for the Baby Box and its contents are covered by supplier contracts and third party IP and where there are formal accreditations the accreditations are supplier IP. Whilst we can share the list of accreditations and industry safety standards which apply to the box and its contents we cannot not share actual product specifications or details of the testing undertaken.

Details of individual safety standards and accreditations are widely available on-line.

SGS

APPENDIX
BS EN 1130 - Furniture —
Cribs and cradles for domestic use - Part 1: Safety requirements

3

e) a warning notice not to use the crib/criadle if any part is broken, torn or missing;

f) the phrase:

'When a child is able to sit, kneel or to pull itself up, the crib/criadle shall not be used anymore for this child.'

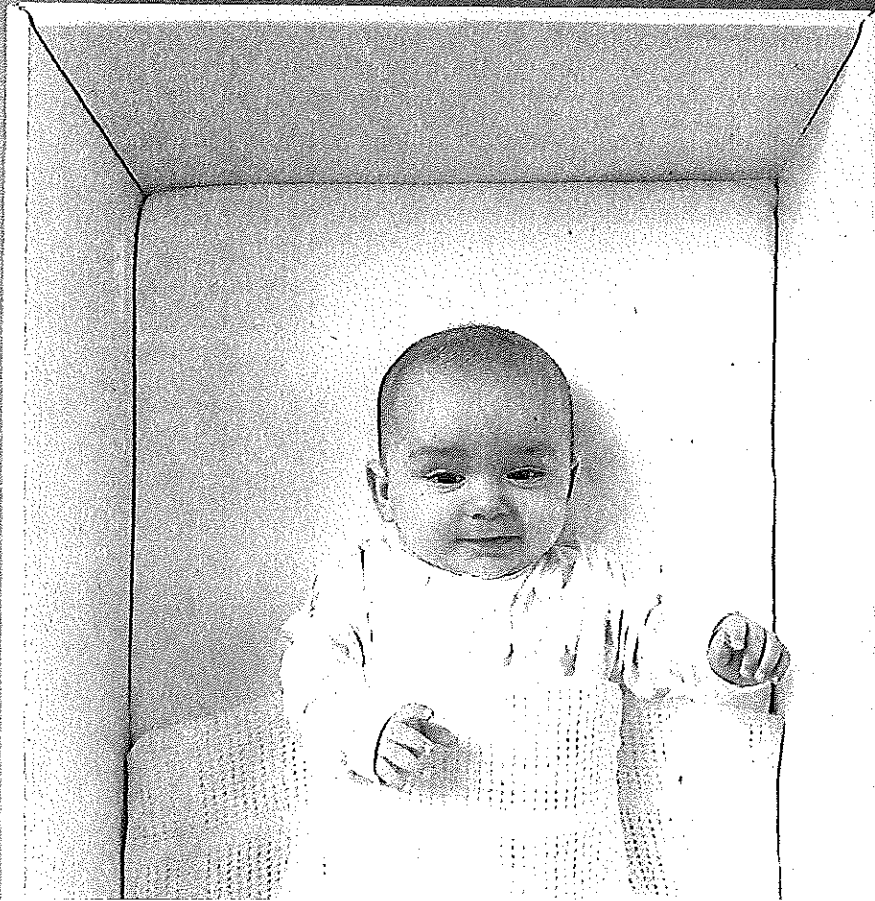

g) a statement that all assembly fittings should always be tightened properly and that care should be taken that no screws are loose, because a child could trap parts of the body or clothing (e.g. strings, necklaces, ribbons for babies' dummies, etc.), which would pose a risk of strangulation;

h) a statement not to use the body of a cradle without its frame;

?

?

**INSIDE THEIR BOX
THEY CAN SLEEP
LIKE A BABY**

Parent Club
parentclub.scot

 **Scottish Government**
Riaghaltas na h-Alba

Your baby can sleep easy

The Baby Box is a safe and comfortable place for your baby to sleep. We've included a mattress, fitted sheet and blanket that fit the box perfectly.

Safe sleeping

1. Always place your baby on their back to sleep with their feet at the end of the box.
2. Tuck the covers securely under your baby's arms so the blankets don't slip over their head. A folded blanket is the same as two blankets.
3. Make sure there is nothing else in the box such as soft toys, pillows, duvets or cot bumpers.
4. Keep your baby smoke-free by not smoking near them or allowing them to be in a room where other people are smoking or have smoked.

Please do not place the Baby Box in the vicinity of open fires, and other sources of strong heat, such as electric bar fires, gas fires etc as this will be extremely dangerous.

Things to remember when using the box for your baby to sleep in

1. The lid should not go on the box when your baby is in it, but should be used as a base by placing it underneath.
2. Don't be tempted to place the box on a table or surface in case it falls. Keep the box flat and don't prop it up.
3. The box is suitable as a sleeping space for young babies. When your child can kneel or pull themselves up, the Baby Box should no longer be used for sleeping.
4. Put the Baby Box on the floor or in the cot (sitting inside the lid).
5. Only use the mattress provided with the box.
6. If you need to move the Baby Box, lift your baby out first, remembering to bend at the knees.
7. Keep the Baby Box close to you when your baby is sleeping in it. This will help them to feel secure.

Subject: RE: Baby Box Specification and Accreditations

Hi

I have updated slightly

Following our discussion today regarding requests relating to accreditations, specifications and testing that we have achieved for Scotland's Baby Box, we should be mindful that the individual product specifications for the Baby Box and its contents are covered by supplier contracts and third party IP and where there are formal accreditations the accreditations are supplier IP. Whilst we can share the list of accreditations and industry safety standards which apply to the box and its contents we cannot not share actual product specifications or details of the testing undertaken.

Details of individual safety standards and accreditations are widely available on-line.

SCOTLAND'S BABY BOX SAFETY INSTRUCTIONS

IMPORTANT

RETAIN FOR FUTURE REFERENCE

Parent Club

Scottish Government
Riaghaltas na h-Alba

IMPORTANT

RETAIN FOR FUTURE REFERENCE

PLEASE READ CAREFULLY

- The Baby Box should be placed on a flat and level surface or floor at all times.
- You should never allow young children to play unsupervised in the vicinity of the Baby Box.
- The Baby Box should never be moved or carried when the infant is inside it.
- Never place the lid on the box whilst the infant is inside.
- The Baby Box comes fully assembled so there is no requirement for you to assemble. You will just need to unwrap the mattress, place the fitted sheet on the mattress, then place in the bottom of the Baby Box.
- Please never use the Baby Box if any part of it is broken, torn or missing.
- When a child is able to sit, kneel or pull themselves up, the Baby Box should not be used anymore for this child.
- Please only use the mattress provided in the Baby Box.
- Please do not place the Baby Box in the vicinity of open fires and other sources of strong heat, such as electric bar fires, gas fires etc., as this will be extremely dangerous.

Subject: FW: FOI Response - request for review

Hi

You will appreciate that the accreditations belongs to the third party suppliers. I have reviewed the certifications and can add as follows

For the box

BS EN 1130-1 (1997)
BS EN 1130 - Furniture —Cribbs and cradles for domestic use
Part 1. Safety requirements

For the mattress and protector

The mattress passes the requirements of BS1877-10: 2011 + A1: 2012 Domestic Bedding
Part 10: Specification For Mattresses And Bumpers For Children's Cots, Perambulators And
Similar Domestic Articles.

The mattress meets the requirements of BS EN 7177, BS EN 597-1:& 2: 1995 FURNITURE
ASSESSMENT OF THE IGNITABILITY OF MATTRESSES AND UPHOLSTERED BED BASES

Hope this covers

Hi

The BS EN 1130 standard covers all types of cribs and cradles so the box does not meet the entire standard as there are many elements that are not applicable for cardboard and as such are marked 'Not Applicable' on the accreditation

In answer to Mr Whites question the box does not meet the entire standard, the box meets the applicable parts of the standard.

Kind regards

APS Group Scotland

Hi

Thanks for this, can we advise if the box meets the standard in its entirety or partly?

Regards,

Subject: FW: FOI Response - request for review

Hi

You will appreciate that the accreditations belongs to the third party suppliers. I have reviewed the certifications and can add as follows

For the box

BS EN 1130-1 (1997)
BS EN 1130 - Furniture —Cribs and cradles for domestic use
Part 1. Safety requirements

For the mattress and protector

The mattress passes the requirements of BS1877-10: 2011 + A1: 2012 Domestic Bedding Part 10: Specification For Mattresses And Bumpers For Children's Cots, Perambulators And Similar Domestic Articles.

The mattress meets the requirements of BS EN 7177, BS EN 597-1:& 2: 1995 FURNITURE ASSESSMENT OF THE IGNITABILITY OF MATTRESSES AND UPHOLSTERED BED BASES

Hope this covers

Kind regards
