TRISS will monitor for next few hours, but have advised on the bridge is very windy. Updated police who confirmed there will be no need to close the bridge at the moment but will monitor updates and carry this out should the need arise. Traffic Scotland are currently signing closed to high sided vehicles. Triss called back to confirm wind has settled and no issues on the bridge.

Not aware of gates being closed, network team will check with police. Traffic Scotland/Police informed. Highland Council also informed

| 01/03/2017 18:55 | Member of Public | A9 | Pitlochry Slip | A9 | Mop called to complain about the slip being closed and had to add 12 miles to his journey. Asked [redacted] to pass through as no idea why slip was closed.  |  |
| 03/03/2017 12:57 | Police           | A9 | Scrabster      | A9 | Police called to report possible landslide blocking lane 1 northbound. Northbound is currently restricted due to debris on the road, police are on site at the moment and BEAR emergency teams are on route. Once BEAR emergency crews arrive on site further update will be sent. Just to confirm road is not closed police are managing traffic flow. BEAR emergency crews have now arrived on site and advised TTL's will need to be put in place. 14:00 Additional plant and traffic management being arranged to attend site for clear up. Further information will be sent out when this is all in place. ISU reckon about 100 tons have come down of the hillside. 17:00 good progress is being made on clean up, TTL's to remain in place all weekend with heavy duty barriers being put in place for additional safety. Geotechnical engineers will attend Monday and carry out further assessments of slope. 2 Emergency Sheets received so far - 1st one 13:30 call out arrived 14:15 and left site at 21:30 (traffic lights)             | Bit of doubt as to whether ours or not but belongs to BEAR, Dunbeath ISU will attend, area manager has been updated [redacted] and traffic Scotland have been updated [redacted] 15:25 Due to a minor landslip additional plant from a local sub-contractor will be attending site shortly to assess with BEAR supervisor and begin clean up of debris this afternoon. As precaution its been agreed TTL's will be set up and remain in place throughout the weekend. Once debris have been cleared or should there be any change to the current status a further sit rep will be sent. Just confirm there is no restriction to the local ferry and traffic is coping well. Contractor left site 21:15 all debris been removed. Approx 250 ton of debris removed |
