Subject: Digital Health Society Declaration

Hi [REDACTED]

It was good to meet at the Cambridge Baltic Conference last November and I had been meaning to get in touch about possible collaborative opportunities. I received the ECH Alliance email, and am pleased to confirm that Scotland are keen to support the work to create and promote the Digital Health Society Declaration through the ECH Alliance working group on eHealth Strategies.

On a separate but related point, my colleagues from the Digital Health Institute have emailed your office about a possible study trip to Estonia for some of us. They had not discussed this with us first, and we are keen that any trip is focussed on government priorities for Health & Care and that beforehand we consider the work which our Digital Directorate colleagues undertook in their trip last September. It would be useful if we could set up a call to discuss objectives for the study trip – could your office organise this as your diary is very busy I expect.

Looking forward to discussing further and getting involved in what will be a very exciting opportunity during Estonia's presidency of the EU.

Have a good and restful Easter break.

Regards
