MARINE (SCOTLAND) ACT 2010, PART 4 MARINE LICENSING

LICENCE FOR DISCHARGING OF USED CHEMICALS FROM WELLBOATS

Licence Number: 03869/12/0 - 4705

Reference Number: FKB/W12

Scottish Ministers (hereinafter referred to as "the licensing authority") hereby authorise:

**Lakeland Marine Farm Limited  
Units 2 & 3, Tigh MhicLeoid  
3 Lochnell Street  
Argyll  
PA31 8JL**

to deposit in the sea the chemicals or agents particulars of which are described in Part 1 of the attached Schedule. The licence is subject to the conditions of use set out, or referred to, in Part 2 of the said Schedule.

This licence shall be valid from 20 February 2012 until 22 February 2013.

Signed: \_\_\_\_\_

For and on behalf of the licensing authority

Date: 20 February 2012

Marine Laboratory, PO Box 101, 375 Victoria Road,  
Aberdeen AB11 9DB  
[www.scotland.gov.uk/marinescotland](http://www.scotland.gov.uk/marinescotland)

Part 1 – Particulars

1. Name and address of the person(s) discharging the used chemical(s) or agent(s):

The Licensee will discharge the used chemical(s) or agent(s)

2. Name and address of any other agents acting on behalf of the licensee (if appropriate):

As per Licensee

3. Name(s) of the vessel(s) to be employed to undertake the discharge operations:

a) [REDACTED]

The agent or licensee must notify the licensing authority immediately by fax if a vessel not listed on the licence is used for the discharge of used chemicals. The information required by the licensing authority regarding the additional vessel(s) will be the same as the information already provided for the vessels on the existing licence. The licensing authority will respond by fax or e-mail, confirming the addition of the new vessel to a revised licence. The revised licence will then be forwarded to the agent or the licensee by the licensing authority.

4. Location of discharge of the used chemical(s) or agent(s):

**Bagd Dail Nan Ceann North (56° 11.01'N 005° 35.07'W)**

**Bagd Dail Nan Ceann South (56° 10.83'N 005° 35.21'W)**

5. Description of the chemical(s) or agent(s):

Excis (1% w/v cypermethrin – cis 40 : trans 60)  
ALPHA MAX (1% deltamethrin)  
Salmosan (50% w/w azamethiphos)  
Hydrogen peroxide

As described in the application dated 15 December 2009 and supporting documentation.

6. Quantity for discharge within the period of validity of the licence:

As described in Condition 11, Condition 12, Condition 13 and Condition 14 in Part 2 of the licence.

Part 2 - Conditions

1. The licensee shall notify the licensing authority by fax or e-mail at least two working days in advance of starting the operation with the date and time of commencement of all operations undertaken under the authority of this licence and the product name and quantity of chemical(s) or agent(s) intended for discharge. Details of the chemical(s) or agent(s) discharged shall also be recorded and reported in accordance with condition 10 of the licence.
2. The treatment of fish should be carried out in such a way as to minimise the discharge of chemical(s) or agent(s).
3. "*Force majeure*" may apply when, due to stress of weather or any other cause, it is necessary to discharge the chemicals or agents at a location other than that specified in Part 1 of the Schedule because the safety of human life, or a vessel or vehicle, is threatened. If chemicals or agents are discharged in an unauthorised area, full details of the circumstances shall be immediately notified to the licensing authority. (See also notes appended to the Schedule).
4. No dead fish shall be discharged to the water environment at any time. Any dead fish should be disposed of above the Mean High Water Springs in an appropriate manner.
5. Works shall only be carried out in accordance with the Treatment Procedure (01 August 2009, Version 1) as provided with the application and Marine Scotland Licensing Operations Team (MS-LOT) shall be informed if alterations are made to the treatment procedure. Copies of the treatment procedure must be kept with copies of the licence.
6. Only those chemicals or agents described in Part 1, section 5 of the Schedule (the authorised deposits) shall be discharged under authority of the licence and all associated tank/hopper washings shall be discharged at the location(s) specified in Part 1, section 4 of the Schedule.
7. The method of discharge shall be:  
  
Pumped discharge via pipe/hatches from Wellboat at a depth of surface to 5 metres below sea surface.
8. Only those persons acting on behalf of, and authorised by, the agent or the licensee shall undertake the discharge operations.
9. The licensee shall provide the Master(s) of the vessel(s) employed to undertake the discharge operations with a copy of the licence. The licensee shall also ensure that copies of the licence and all other relevant documents, including the treatment

procedure (01 August 2009, Version 1), are available for inspection by any authorised Enforcement Officer at:

- a) the premises of the licensee; and
- b) on board the vessel(s) employed to undertake the discharge operations.

10. A log of operations shall be maintained and kept on board the discharge vessel(s) throughout each discharge operation, and be available for inspection by an authorised Enforcement Officer. The logs shall be retained for a period of six calendar months following expiry of the licence.

For each discharge operation, the following information must be recorded:

- a) the name of the vessel;
- b) the name of the product and its active ingredient;
- c) the quantity (volume) of the product scheduled for discharge;
- d) the date, time and position of each discharge operation;
- e) the weather, including wind strength and direction, sea and tidal state throughout each discharge operation;
- f) the rate of discharge during each discharge operation, if appropriate, and the duration of each discharge operation. (If the rate of discharge is not constant, the maximum and mean rates of discharge should be indicated);
- g) report on each discharge operation, including details of any problems; and an explanation for any delays; and
- h) the signature of the Master at the foot of each page of each record.

The above information can be entered on form FEP6. The licensee shall provide to MS-LOT at three monthly intervals or on request from MS-LOT, a copy of all or any part of the records specified above.

11. a) Subject to condition 11 b), the total quantity of cypermethrin as contained in the trade product Excis, discharged in any consecutive 3 hour period beginning at the time of the first release of Excis as part of any specific treatment at Bagd Dail nan Creann North, shall not exceed 47.32 grams (this is equivalent to 4732 millilitres of Excis) and at Bagd Dail nan Creann South, shall not exceed 49 grams (this is equivalent to 4900 millilitres of Excis)
- b) Cypermethrin, as contained in the trade product Excis, shall not be discharged if deltamethrin, formulated as AMX™ 10mg/ml concentrate solution for fish treatment or as ALPHA MAX™ marketed by Pharmaq AS, has been discharged at the premises in the previous 3 hours.

12. a) The total quantity of azamethiphos, as contained in the trade product Salmosan, discharged in any consecutive 24 hour period beginning at the time of the first release of Salmosan as part of any specific treatment at Bagd Dail nan Creann North, shall not exceed 263.9 grams (this is equivalent to 527.8 grams of Salmosan).
- b) The total quantity of azamethiphos, as contained in the trade product Salmosan, discharged in any consecutive 3 hour period beginning at the time of the first release of Salmosan as part of any specific treatment at Bagd Dail nan Creann South, shall not exceed 273.2 grams (this is equivalent to 546.4 grams of Salmosan). The total quantity of azamethiphos, as contained in the trade product Salmosan, discharged in any consecutive 24 hour period beginning at the time of the first release of Salmosan as part of any specific treatment at Bagd Dail nan Creann South, shall not exceed 341.2 grams (this is equivalent to 682.4 grams of Salmosan).
13. a) Subject to condition 13 b), the total quantity of deltamethrin, formulated as AMX™ 10mg/ml concentrate solution for fish treatment or as ALPHA MAX™ marketed by Pharmaq AS, discharged in any consecutive 3 hour period beginning at the time of the first release of deltamethrin, formulated as AMX™ 10 mg/ml concentrate solution for fish treatment or as ALPHA MAX™ marketed by Pharmaq AS, as part of any specific treatment at Bagd Dail nan Creann North shall not exceed 17.75 grams (this is equivalent to 1775 millilitres of AMX™ or ALPHA MAX™) and at Bagd Dail nan Creann South shall not exceed 18.37 grams (this is equivalent to 1837 millilitres of AMX™ or ALPHA MAX™).
- b) Deltamethrin, formulated as AMX™ 10mg/ml concentrate solution for fish treatment or as ALPHA MAX™ marketed by Pharmaq AS, shall not be discharged if cypermethrin, as contained in the trade product Excis, has been discharged at the premises in the previous 3 hours.
14. Hydrogen peroxide may be discharged at any time provided its actual use is recorded and reported in accordance with Part 2, section 10 of this licence.
15. In the event of the licensee becoming aware of any changes to the information on which the issue of the licence was based, the licensing authority shall be immediately notified of the details.
16. Where any of the chemical(s) or agent(s) listed in Condition 11, 12 and 13 are also authorised for discharge to the water environment following bath treatment at the fish holding cages at the site described in Part 1, section 4 under an authorisation granted by Scottish Environment Protection Agency then the quantity of that chemical or agent discharged over the time period specified in the relevant condition by the method specified in Condition 7 and from the cages over the same time period shall not exceed the total quantity specified in the relevant condition.
17. The chemical(s) or agent(s) listed above shall only be discharge following treatment of fish within the vessel(s) listed in Part 1, section 3.

## NOTES

1. You are deemed to have satisfied yourself that there are no barriers, legal or otherwise, to the carrying out of the licensed operations. The issue of the licence does not absolve the licensee from obtaining such authorisations, consents etc which may be required under any other legislation.
2. In the event that the licensee wishes any of the particulars set down in Part 1 of the Schedule to be altered, the licensing authority shall be immediately notified of the alterations. It should be noted that changes can invalidate a licence, and that an application for a new licence may be necessary.
3. Under Section 30 of the Marine (Scotland) Act 2010, the licensing authority may vary, suspend or revoke the licence, if it appears to the authority that there has been a breach of any of the provisions of the licence or for any other reason that appears to be relevant to the authority.
4. Under Section 39 of the Marine (Scotland) Act 2010, it is an offence to carry on a licensable marine activity or cause or permit any other person to carry on such an activity without a marine licence or fails to comply with any condition of a marine licence. It is a defence for a person charged with an offence under Section 40 in relation to any activity to prove that the activity was carried out for the purpose of saving life, or for the purposes of securing the safety of a vessel, aircraft or marine structure (*force majeure*), and that the person took steps within a reasonable time to provide full details of the incident to the licensing authority. (Under Annex II, Article 7 of the Convention for the Protection of the Marine Environment of the North-east Atlantic, the licensing authority is obliged to immediately report '*force majeure*' incidents to the Convention Commission).
5. All correspondence or communications relating to the licence should be addressed to:
