Hi [REDACTED]

In regard to the SNMP I would recommend looking at the General Polices (pages 15-34) and provide a few sentences of the considerations that you have made, including reference to the policies that you have considered. This could be anything that you think is relevant such as the visual impact or economic benefits of the moorings which would be under GEN 7 Landscape/seascape and GEN 2 Economic benefit.

We can accept hard copy maps/chart. The map needs to clearly show the extent of the moorings area so this would need to be marked up.

I had a discussion previously with the Crown Estate who suggested the equipment of the fish farm had been removed. Many thanks confirming this information, much appreciated.

I hope the above is helpful. Please do not hesitate to get in touch should you require any further information.

Kind regards,

Sophia

**Subject:** Ardchattan moorings

Dear Sophia  
Thank you for your email of 13 Dec

1-Please could you direct me to the section within the 144 pages of the SNMP we need to make reference to?2- Can the Os map or the chart be in hard copy as I do not have the software to send it digitally ?does it need to be marked up or are the latitude longitude coordinates we have already submitted adequate ?

( For your interest the site in question had a fish farm with four cages with 12 huge anchors which have now been removed )

I look forward to hearing from you

Best regards

Subject: [REDACTED] 12 Private Moorings - Archattan Pier, Loch Etive, Argyll

Dear [REDACTED]

I refer to your application for a marine licence in respect of the above. Further to checking your application it is considered to be invalid for the reasons noted below:

· No consideration of the SNMP has been given (please see link to SNMP below)

<http://www.gov.scot/Publications/2015/03/6517/downloads#res-1>

· We cannot accept a Crown Estate chart for copyright reasons

Under Part 4, section 25(1) of The Marine (Scotland) Act 2010 (the Act), Scottish Ministers may require an application for a marine licence to be made in such form as they may determine. Under Part 4, section 25(3) of the Act, Scottish Ministers may require an applicant to supply such information and produce such articles as in their opinion may be necessary to enable them to determine the application. In addition under Part 4 section 25(6) of the Act, if an applicant fails to comply with a requirement made by the Scottish Ministers under this section, the Ministers may refuse to proceed with the application or refuse to proceed with it until the failure is remedied.

I should be grateful if you could make reference to the SNMP and submit an OS or Admiralty Chart which is not copyright in order for us to continue processing your application.

Kind regards,

Sophia
