Subject: FOISA Section 60 Code of Practice - 2014 update

Good afternoon,

As many of you will know, the updated section 60 Code of Practice was laid at Parliament last week and launched at the Holyrood FOI Conference. For those who haven't seen it yet, the updated Code can be seen and downloaded here:

<http://www.scotland.gov.uk/About/Information/FOI/Section60Code/s60codeofpractice>

The additions made to the Code were discussed at a conference masterclass by officials from both SG and the Office of the Scottish Information Commissioner – the slideshow used during the masterclass is available here:

I would like to thank all those who provided comments or suggestions over the past year – your contributions were vital in making this update a success and ensuring the Code continues to be useful and relevant.

Best wishes for the festive season,
