## FISH HEALTH INSPECTORATE VISIT REPORT

### SUMMARY FOR INFORMATION OF SITE OPERATOR

<b>BUSINESS No</b>	FB0569	<b>DATE OF VISIT</b>	03/09/2019
<b>SITE No</b>	FS1316	<b>SITE NAME</b>	Lentran Aquaponics
<b>INSPECTOR</b>	██████████	<b>CASE No</b>	20190464

#### Inspection under the Aquatic Animal Health (Scotland) Regulations 2009

The above site was contacted in accordance with the Aquatic Animal Health (Scotland) Regulations 2009, and to meet the requirements of European Community Council Directive 2006/88/EC.

The information required for the public record of aquaculture production businesses regarding this site was verified and where necessary updated. The site was reported to be fallow.

No mortality had been observed on site since the last inspection by Marine Scotland.

Following discussion with the operator, it has been agreed that the site should be deregistered. The appropriate form has been forwarded and should be completed and returned to the Fish Health Inspectorate.

The following points were raised with the site representative during the inspection:

**Aquaculture animal and aquaculture animal product movement records were not available for inspection, as they were in storage following the site no longer being active. The site did not transfer any live fish for on-growing and did not stock species susceptible to listed diseases. Please ensure the records are available for inspection if the site is stocked in future.**

Please contact myself or the duty inspector should you require any further information or have any queries regarding this report.

Signed: ██████████
