Estimated number of local authority school-based staff absent due to Covid-related reasons, Scotland

For any LAs that were unable to submit their latest information on time, or for other reasons (e.g. due to local holidays/in-service days), then their previously submitted figures have been carried forward in order to produce an estimated total number of staff absent for Scotland.

As such, week on week comparisons should be made with some caution as there will be some variation in the number of weeks between a local authority's latest provided figures and their previously submitted figures.

The latest estimated total number of staff absent (i.e. as at 22/06/21) has two local authorities for which previously supplied figures have been carried forward.

North Ayrshire schools are now on holiday so data in the latest week is based on 31 local authorities.
