Dead/weak/abnormally behaving fish present?  If yes, see additional information/clinical score sheet.  
 Clinical signs of disease observed?  If yes, see additional information/clinical score sheet.  
 Gross pathology observed?  If yes, see additional information/clinical score sheet.  
 Diagnostic samples taken?

UNI/REG only - if unable to carry out intended visit detail reason below:

**Additional Case Information:**

Sites currently stocked but looking to fallow and inactivate in 2022. Hoped to be cleared before March 2022.

Stock removed from site and placed in bags at Ard Mhor- After they have been on Ard Mhor 2 to 3 week they are graded. This reduced damage as shells harden up prior to grading. Mortality is therefore associated with Ard Mhor. No mortality recorded or observed at Ardveenish.

Crabs in trays- unable to be graded due to COVID. Work for grading could only resume spring 2021. 18 months without being able to grade.

Site inspected but unable to lift lines due tidal condition and weight of lines. Site to be fallow by end of year.

One row of double long line on site.

# FISH HEALTH INSPECTORATE VISIT REPORT

## SUMMARY FOR INFORMATION OF SITE OPERATOR

<b>BUSINESS No</b>	SB0533	<b>DATE OF VISIT</b>	21/09/2021
<b>SITE No</b>	SS0876	<b>SITE NAME</b>	Ardveenish
<b>CASE No</b>	20210344	<b>INSPECTOR</b>	[REDACTED]

### Inspection under the Aquatic Animal Health (Scotland) Regulations 2009

The above site was inspected, in accordance with the Aquatic Animal Health (Scotland) Regulations 2009.

All epidemiological units were inspected however we were unable to lift the lines due to strong tidal conditions at the time of the visit. On this occasion no samples were taken for disease analysis. The Inspector did not observe any clinical signs associated with the listed diseases as described in the Aquatic Animal Health (Scotland) Regulations 2009.

### Records

The surveillance frequency category of the site was assessed as medium. An inspection under the Aquatic Animal Health (Scotland) Regulations 2009 will be conducted every second year. The category of the site will be reassessed on a routine basis and updated as required.

The information required for the public record of aquaculture production businesses regarding this site was verified and where necessary updated. The following records were also inspected to ensure that the conditions of authorisation for your Aquaculture Production Business (APB) are being met:

Aquaculture animal and aquaculture animal product movement records were inspected and appeared to be adequately maintained.

No mortality had been observed on site since the last inspection by Marine Scotland.

No animal health surveillance had been carried out on behalf of the business and/or Marine Scotland since the last Marine Scotland Inspection.

Please contact myself or the duty inspector should you require any further information or have any queries regarding this report.

Signed:

Fish Health Inspector

## FISH HEALTH INSPECTORATE VISIT REPORT

### SUMMARY FOR INFORMATION OF SITE OPERATOR

<b>BUSINESS No</b>	SB0533	<b>DATE OF VISIT</b>	21/09/2021
<b>SITE No</b>	SS0899	<b>SITE NAME</b>	Ba'Charais
<b>CASE No</b>	20210345	<b>INSPECTOR</b>	[REDACTED]

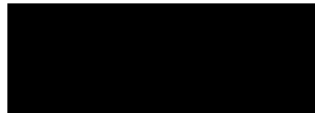

#### Aquatic Animal Health (Scotland) Regulations 2009

The information required for the public record of aquaculture production businesses regarding the site details for Ba'Charais were checked in accordance with the Aquatic Animal Health (Scotland) Regulations 2009.

The site had been fallow since May 2017 and there are currently no plans to use the site again. We were unable to visit the site at the time due to access issues but were informed that the rafts remained on site. These rafts are due to be removed when weather permits. Paper work was completed to inactivate the site and this will be done when the rafts have been removed and the inspectorate view the site as being fallow.

Please contact myself or the duty inspector should you require any further information or have any queries regarding this report.

# FISH HEALTH INSPECTORATE VISIT REPORT

## SUMMARY FOR INFORMATION OF SITE OPERATOR

<b>BUSINESS No</b>	SB0533	<b>DATE OF VISIT</b>	21/09/2021
<b>SITE No</b>	SS0874	<b>SITE NAME</b>	Garbh Lingeigh
<b>CASE No</b>	20210346	<b>INSPECTOR</b>	[REDACTED]

### Inspection under the Aquatic Animal Health (Scotland) Regulations 2009

The above site was inspected, in accordance with the Aquatic Animal Health (Scotland) Regulations 2009.

All epidemiological units were inspected however we were unable to lift the lines due to tidal conditions at the time of the visit. On this occasion no samples were taken for disease analysis. The Inspector did not observe any clinical signs associated with the listed diseases as described in the Aquatic Animal Health (Scotland) Regulations 2009.

### Records

The surveillance frequency category of the site was assessed as high. An inspection under the Aquatic Animal Health (Scotland) Regulations 2009 will be conducted annually. The category of the site will be reassessed on a routine basis and updated as required. It was noted that the site operator intends to fallow the site, remove all equipment and inactivate the site in 2022.

The information required for the public record of aquaculture production businesses regarding this site was verified and where necessary updated. The following records were also inspected to ensure that the conditions of authorisation for your Aquaculture Production Business (APB) are being met:

Aquaculture animal and aquaculture animal product movement records were inspected and appeared to be adequately maintained.

No mortality had been observed on site since the last inspection by Marine Scotland.

No animal health surveillance had been carried out on behalf of the business and/or Marine Scotland since the last Marine Scotland Inspection.

The biosecurity measures plan for the site was inspected and found to be adequately maintained and implemented.

Please contact myself or the duty inspector should you require any further information or have any queries regarding this report.

Signed: [REDACTED]

Date: 17/11/2021

If yes, is there a system in place for maintenance of transportation records?

**Mortality Records**

1. Mortality records available for inspection?

2. How are mortalities disposed of?

If other detail:

3. Mortality records complete and correctly entered?

4. Recent mortality (last 4 wks):

5. Evidence of recent increased/atypical mortalities?

If yes, facility nos/no mortality per facility/no stock per facility/reason:

6. Any other peaks in mortality during period checked?

If yes, detail:

7. Have increased (unexplained) mortalities been reported to vet or FHI?

If yes, detail action:

8. Have 'mortality events' been reported to FHI? If no, enter details on mortality events sheet.

**Treatments and Medicines Records**

1. Recent treatments (see comment)?

If yes, detail:

If other, detail:

2. Medicines records available for inspection?

3. Are records complete and correctly entered?

4. Are fish in a withdrawal period?

5. If yes, what treatment(s)?

If other, detail:

6. Are medicines stored appropriately?

**Biosecurity Records**

1. Biosecurity records available for inspection?

2. Has the manner and frequency of mortality removal, recording and safe disposal been considered?

3. Has the manner and period in which the APB will notify Scottish Ministers or veterinary professional of any *increased (unexplained)* mortality at the site been included?

4. Has the action that will be taken in the event that the presence or suspicion of the presence of a listed disease is detected been included and *how* and *when* that will be notified to Scottish Ministers?

5. Has the health status of aquaculture animals being stocked on the farm site been covered (equal or higher health status, certification if required)?

6. Have the husbandry and biosecurity measures implemented between each epidemiological unit to minimise transmission of disease been covered (movement of staff, visitors, equipment, live or dead fish etc.)?

7. Is documentation available regarding the measures in place to maintain the physical containment of aquaculture animals held on site?

8. Have the biosecurity procedures been adequately implemented on site?

If no, detail:

**Results of Surveillance**

1. Has any animal health surveillance been carried out by, or on behalf of, the business?

2. If yes, are results available for inspection?

3. Any significant results?

If yes, detail (if not detailed under recent disease problems).

## FISH HEALTH INSPECTORATE VISIT REPORT

### SUMMARY FOR INFORMATION OF SITE OPERATOR

<b>BUSINESS No</b>	SB0533	<b>DATE OF VISIT</b>	21/09/2021
<b>SITE No</b>	SS0858	<b>SITE NAME</b>	Loch na H-Obbe
<b>CASE No</b>	20210347	<b>INSPECTOR</b>	[REDACTED]

#### Aquatic Animal Health (Scotland) Regulations 2009

The information required for the public record of aquaculture production businesses regarding the site details for Loch na H-Obbe were checked in accordance with the Aquatic Animal Health (Scotland) Regulations 2009.

The site had been fallow since August 2018 and there are currently no plans to use the site again. We were unable to visit the site at the time due to access issues but were informed that a raft remains on site. This raft is due to be removed. Paper work was completed to inactivate the site and this will be done when the raft has been removed and the inspectorate view the site as being fallow.

Please contact myself or the duty inspector should you require any further information or have any queries regarding this report.

Time spent on site: 1/2 hour Main Inspector:

Site No: SS0875 Site Name: Rubha Charnain  
Business No: SB0533 Business Name: Traigh Mhor Oysters

Case Types: 1 REG 2 3 4 5 6

Water Temp (°C): n/a Thermometer No: FHI 045 completed

Observations: Region: WI Water type: S CoGP MA

Dead/weak/abnormally behaving fish present? N If yes, see additional information/clinical score sheet.  
Clinical signs of disease observed? N If yes, see additional information/clinical score sheet.  
Gross pathology observed? N If yes, see additional information/clinical score sheet.  
Diagnostic samples taken? N

UNI/REG only - if unable to carry out intended visit detail reason below:  
Unable to lift droppers

**Additional Case Information:**

Looking to inactivate in 2022. Hope to be fallow and equipment removed by March 2022. Stock being graded to Ard Mhor.

Stock removed from site and placed in bags at Ard Mhor- After they have been on Ard Mhor 2 to 3 week they are graded this reduced damage as shells harden up prior to grading. Mortality is therefore associated with Ard Mhor. No mortality recorded or observed at Rubha Charnain and stocks are moved to Ard Mhor and graded there.

Site inspected two long lines with stock. Unable to lift line due to tidal conditions. Site will be fallow by end of year.

# FISH HEALTH INSPECTORATE VISIT REPORT

## SUMMARY FOR INFORMATION OF SITE OPERATOR

<b>BUSINESS No</b>	SB0533	<b>DATE OF VISIT</b>	21/09/2021
<b>SITE No</b>	SS0875	<b>SITE NAME</b>	Rubha Charnain
<b>CASE No</b>	20210349	<b>INSPECTOR</b>	[REDACTED]

### Inspection under the Aquatic Animal Health (Scotland) Regulations 2009

The above site was inspected, in accordance with the Aquatic Animal Health (Scotland) Regulations 2009.

All epidemiological units were inspected however we were unable to lift the lines due to tidal conditions at the time of the visit. On this occasion no samples were taken for disease analysis. The Inspector did not observe any clinical signs associated with the listed diseases as described in the Aquatic Animal Health (Scotland) Regulations 2009.

### Records

The surveillance frequency category of the site was assessed as medium. An inspection under the Aquatic Animal Health (Scotland) Regulations 2009 will be conducted every second year. The category of the site will be reassessed on a routine basis and updated as required. It was noted that the site operator intends to fallow and inactive the site in 2022.

The information required for the public record of aquaculture production businesses regarding this site was verified and where necessary updated. The following records were also inspected to ensure that the conditions of authorisation for your Aquaculture Production Business (APB) are being met:

Aquaculture animal and aquaculture animal product movement records were inspected and appeared to be adequately maintained.

No mortality had been observed on site since the last inspection by Marine Scotland.

No animal health surveillance had been carried out on behalf of the business and/or Marine Scotland since the last Marine Scotland Inspection.

The biosecurity measures plan for the site was inspected and found to be adequately maintained and implemented.

Please contact myself or the duty inspector should you require any further information or have any queries regarding this report.

## FISH HEALTH INSPECTORATE VISIT REPORT

### SUMMARY FOR INFORMATION OF SITE OPERATOR

<b>BUSINESS No</b>	SB0526	<b>DATE OF VISIT</b>	21/09/2021
<b>SITE No</b>	SS0849	<b>SITE NAME</b>	Fuiay Rock South of Hellisay
<b>CASE No</b>	20210361	<b>INSPECTOR</b>	[REDACTED]

The above site was inspected in accordance with the Aquatic Animal Health (Scotland) Regulations 2009.

On this occasion, the site was found to be fallow with all facilities removed. An authorisation amendment application was completed to deregister the site as there are no plans to use the site at this time. If the site is to be used in the future you must notify the Fish Health Inspectorate at least 30 days prior so the status can be amended following approval.

Please contact myself or the duty inspector should you require any further information or have any queries regarding this report.
